

I. Neuroscience & Brain Structure: Scientific studies examining the neurological biological basis of gender identity, including white/gray matter analysis and brain connectivity.

1. A Review of the Status of Brain Structure Research in Transsexualism

Description: A comprehensive review analyzing years of research on the brain structures of transgender individuals.

URL: <https://www.ncbi.nlm.nih.gov/pmc/articles/PMC4987404/>

2. Brain differences between men and women and their relationship to transgender identity

Description: The foundational study by Zhou et al. (1995) identifying that the bed nucleus of the stria terminalis (BSTc) in trans women matched that of cisgender women.

URL: <https://pubmed.ncbi.nlm.nih.gov/7477289/>

3. Neurobiology of gender identity and sexual orientation

Description: A review of the biological and neurological factors that contribute to the formation of gender identity.

URL: <https://pubmed.ncbi.nlm.nih.gov/29211317/>

4. Neuroscience and sex/gender

Description: An analysis published in the Journal of Neuroscience discussing the intersection of biological sex and gender identity.[1]

URL: <https://www.jneurosci.org/content/40/1/37>

5. Regional variation of gray matter in transgender women

Description: An MRI study finding that specific gray matter volumes in transgender women resemble those of cisgender women.

URL: <https://pubmed.ncbi.nlm.nih.gov/19341803/>

6. Sexual Dimorphism in the Third Core interstitial of the hypothalamus and its relationship to gender identity

Description: Research examining hypothalamic structures, finding they correlate with gender identity rather than sexual orientation.

URL: <https://pubmed.ncbi.nlm.nih.gov/18980961/>

7. Sexual orientation and its basis in brain structure and function

Description: A commentary in PNAS discussing the neurobiological underpinnings of sexual orientation and identity.

URL: <https://www.pnas.org/content/105/30/10273>

8. Structural connections in the brain in relation to gender identity and sexual orientation

Description: A study using diffusion tensor imaging to analyze brain connectivity patterns in trans individuals.

URL: <https://www.nature.com/articles/s41598-017-17352-8>

9. Structural Connectivity Networks of Transgender People

Description: An analysis of the network topology and connectivity of transgender brains compared to cisgender controls.

URL: <https://pubmed.ncbi.nlm.nih.gov/25217469/>

10. The microstructure of white matter in transgender men before hormone therapy

Description: Investigation showing that white matter microstructure in trans men differs from cis women even before medical intervention.

URL: <https://pubmed.ncbi.nlm.nih.gov/20562024/>

11. Transgender brains are more like their desired gender from an early age

Description: A conference presentation discussing how brain activity and structure in trans youth align with their gender identity.

URL: <https://www.es-hormones.org/media/1506/transgender-brains-are-more-like-their-desired-gender-from-an-early-age.pdf>

12. Transgender women have a considerable number of female neurons in their limbic system

Description: A study focusing on neuron numbers in the limbic system of transgender women, supporting a biological basis for identity.

URL: <https://pubmed.ncbi.nlm.nih.gov/10843193/>

13. Transsexualism: A Different Viewpoint to Brain Changes

Description: A commentary regarding the interpretation of brain changes and neuroanatomy in transgender individuals.

URL: <https://www.ncbi.nlm.nih.gov/pmc/articles/PMC5953012/>

II. Biological Sex, Genetics & Intersex: Resources covering the complexity of biological sex determination, genetic variations, and physical anthropology.

1. Beyond XX and XY: The Extraordinary Complexity of Sex Determination

Description: A Scientific American article explaining why biological sex is a spectrum rather than a simple chromosomal binary.

URL: <https://www.scientificamerican.com/article/beyond-xx-and-xy-the-extraordinary-complexity-of-sex-determination/>

ALT: <https://web.archive.org/web/20181128043644/https://www.scientificamerican.com/article/beyond-xx-and-xy-the-extraordinary-complexity-of-sex-determination/>

2. Biometric Characteristics of the Pelvis in Female Transgenders

Description: An anthropometric study comparing pelvic measurements.

URL: <https://link.springer.com/article/10.1007/s10508-012-9989-4>

3. Communiqué from 2,617 geneticists and biologists

Description: A signed statement by thousands of scientists asserting that gender identity is valid and supported by neuroscientific studies.

URL: <https://not-binary.org/statement/>

ALT: <https://www.google.com/url?sa=E&q=https%3A%2F%2Fnot-binary.org%2Fstatement%2F>

4. Gender taxonomy: Are there really more than two sexes?

Description: An article discussing the biological taxonomy of sex and the existence of intersex variations.

URL: <https://cienciasdelsur.com/2019/01/28/taxonomia-de-genero-realmente-hay-mas-de-dos-sexos/>

ALT: <https://web.archive.org/web/20200815042602/https://cienciasdelsur.com/2019/01/28/taxonomia-de-genero-realmente-hay-mas-de-dos-sexos/>

5. Measuring Intersex/DSD Populations

Description: An NIH book chapter discussing the complexities of measuring intersex status and its relation to sex assignment.

URL: <https://www.ncbi.nlm.nih.gov/books/NBK553755/>

6. Minireview: Hormones and Human Sexual Orientation

Description: A review by Jacques Balthazart on the role of prenatal hormones in developing sexual orientation.

URL: <https://www.ncbi.nlm.nih.gov/pmc/articles/PMC3138231/>

7. The Biological Contributions to Gender Identity and Gender Diversity

Description: A paper reviewing data on the biological factors contributing to gender identity.

URL: <https://link.springer.com/article/10.1007/s10519-018-9889-z>

8. Consensus statement on management of intersex disorders (2006)

Description: The seminal international guidelines (Lee et al.) published in Pediatrics that modernized the classification and treatment of intersex conditions.

URL: <https://pediatrics.aappublications.org/content/118/2/e488>

9. The idea of two sexes is simplistic (Sex Redefined)

Description: A Nature article arguing that the biological binary of sex is overly simplistic given modern genetic understanding.

URL: <https://www.scientificamerican.com/article/sex-redefined-the-idea-of-2-sexes-is-overly-simplistic1/>

ALT: <https://web.archive.org/web/20190308052618/https://www.nature.com/news/sex-redefined-1.16943>

10. What Our Skeletons Say About the Sex Binary

Description: An anthropological perspective on how skeletal dimorphism is not strictly binary.

URL: <https://www.sapiens.org/body/intersex-biological-sex/>

11. Why Sex Is Mostly Binary but Gender Is a Spectrum

Description: An article exploring the biological distinctions between sex assignment and the spectrum of gender.

URL: <http://nautil.us/issue/43/heroes/why-sex-is-binary-but-gender-is-a-spectrum>

12. World Health Organization data: Gender and Genetics

Description: WHO resources regarding the genomic basis of gender.

URL: <https://www.who.int/health-topics/gender>

ALT: <https://web.archive.org/web/20190410183350/https://www.who.int/genomics/gender/en/index1.html>

13. Scientists reject a binary view of human sex at NIH symposium

Description: The complexities of human sex require more inclusive definitions, and research data needs to reflect biological complexity.

URL: <https://cen.acs.org/biological-chemistry/genomics/Scientists-reject-binary-view-human/102/i33>

III. Mental Health, Transition Outcomes & Healthcare: Studies on the impact of medical transition, surgery, and social support on mental well-being.

1. Better mental health found among transgender people who started hormones as teens

Description: Stanford Medicine study (2022) showing improved outcomes for those starting HRT in adolescence.

URL: <https://journals.plos.org/plosone/article?id=10.1371/journal.pone.0261039>

ALT: <https://pubmed.ncbi.nlm.nih.gov/35020719/>

2. First-of-a-kind study shows encouraging data for trans kids who socially transition

Description: Data indicating that transgender youth rarely "detransition" in the years following social transition.

URL: <https://www.popsoci.com/science/transgender-children-gender-identity/>

3. Mental Health Outcomes in Transgender and Nonbinary Youths Receiving Gender-Affirming Care

Description: Study finding that access to care mitigates mental health disparities over a one-year period.

URL: <https://pmc.ncbi.nlm.nih.gov/articles/PMC8881768/>

4. Mental health benefits associated with gender-affirming surgery

Description: Harvard study analyzing the 2015 U.S. Transgender Survey data regarding positive surgical outcomes.

URL: <https://hsph.harvard.edu/news/mental-health-benefits-associated-with-gender-affirming-surgery/>

5. Survey of over 90,000 trans people shows vast improvement in life satisfaction after transition

Description: CBS News report on the 2022 U.S. Trans Survey detailing the positive life impacts of transition.

URL: <https://www.cbsnews.com/news/survey-90000-trans-people-shows-vast-improvement-in-life-satisfaction-after-transition/>

6. WPATH Standards of Care for the Health of Transgender and Gender Diverse People, Version 8

Description: The international clinical guidelines for the health of transgender and gender diverse people (2022).

URL: <https://www.wpath.org/publications/soc>

7. What does the scholarly research say about the effect of gender transition on transgender well-being?

Description: A Cornell University literature review confirming the positive impact of transition on well-being.

URL: <https://whatweknow.inequality.cornell.edu/topics/lgbt-equality/what-does-the-scholarly-research-say-about-the-well-being-of-transgender-people/>

8. Gender-affirming health care needs, barriers to care, and health and wellbeing in a broad nationwide sample of transgender people in Norway.

Description: over 90% of transgender and nonbinary people surveyed in Norway are satisfied with their gender-affirming care outcomes.

URL: <https://pmc.ncbi.nlm.nih.gov/articles/PMC12681104/>

IV. Psychology, Development & Cognition: Resources on child development, psychological definitions, and cognitive science.

1. Development of gender identity from a psycho-socio-cultural perspective: A conceptual tour

Description: A review by Molina & Grazioso examining how gender identity develops through various psychological lenses (psychoanalytic, cognitive-evolutionary, and psychosocial).

URL: <https://revistas.pucp.edu.pe/index.php/psicologia/article/view/266>

ALT: <https://www.ncbi.nlm.nih.gov/pmc/articles/PMC4681519/>

2. Gender Cognition in Transgender Children

Description: Research on how transgender children conceptualize and process gender (Olson et al., 2015).

URL: <https://journals.sagepub.com/doi/10.1177/0956797614568156>

3. Gender Dysphoria (Definition)

Description: Psychology Today's clinical definition and overview of Gender Dysphoria.

URL: <https://www.psychologytoday.com/intl/conditions/gender-dysphoria>

4. Sex and gender are dials (not switches)

Description: Psychology Today article discussing the evolving perspective of sex and gender complexity.

URL: <https://www.psychologytoday.com/us/blog/sexual-personalities/201605/sex-and-gender-are-dials-not-switches>

5. Sexual Orientation, Controversy, and Science

Description: A comprehensive report by Bailey, Vasey, Diamond, et al. on the science of sexual orientation.

URL: <https://journals.sagepub.com/doi/pdf/10.1177/1529100616637616>

6. Similarity in transgender and cisgender children's gender development

Description: PNAS study showing that trans children develop gender identity in comparable ways to cisgender children.

URL: <https://www.pnas.org/content/116/49/24480>

V. Sociology, Theory & Definitions: General definitions, sociological concepts, and academic theory.

1. Gender Ideology, a misrepresented and ignored academic concept

Description: An article analyzing the concept of "gender ideology" and its political use vs. academic reality.

URL: <https://cienciasdelsur.com/2019/08/19/ideologia-de-genero-concpt/>

2. What, then, is gender?

Description: An exploration of the definition and social understanding of gender (Ciencia del Sur).

URL: <https://cienciasdelsur.com/2020/06/12/que-es-then-el-genero/>

ALT:

https://www.researchgate.net/publication/343658292_Que_es_entonces_el_genero_What_then_is_gender

3. What does transgender mean? (APA)

Description: Official definitions and FAQ from the American Psychological Association.

URL: <https://www.apa.org/topics/lgbtq/transgender-people-gender-identity-gender-expression>
